

FREE VRS & PASSIVE SAFETY PRESENTATION

Please join us and let us share our knowledge through our technical presentations to support you with your VRS requirements.

Available in person or on Microsoft Teams.

OUR PRESENTERS:

Nigel Bullock
Head of Solutions

Sarah Compton
Highways Accounts Manager

THE BENEFITS:

Take advantage of decades of experience in developing, manufacturing, installing and maintaining a broad range of highways products, presented to you by established and informed experts in the roads sector.

- ✓ Understand highway standards for the use of VRS and best value design.
- ✓ Learn about new solutions that provide increased efficiencies and support carbon reduction.
- ✓ A live presentation, allowing for Q&A throughout the presentation.

OUR TOPICS

Highway Requirements

Including CD377, VRS guidance, concrete barriers, temporary barriers, parapets and passive posts.

Passive Safety Solutions

Learn more about our Himast passive safety sign support.

Carbon Footprint

Reducing carbon through fresh innovation like REBLOC LC.

Barrier Selection

Not all barriers are the same, expand your knowledge to choose the best value VRS solution.
