

FREE VEHICLE ROAD RESTRAINT SOLUTIONS PRESENTATION

Please join us and let us share our knowledge through our technical presentations to support you with your VRS requirements

Available in person, on Microsoft Teams or hybrid presentations

OUR PRESENTERS:

Nigel Bullock
Head of Solutions

Sarah Compton
Business Development Manager

THE BENEFITS:

Take advantage of decades of experience in developing, manufacturing, installing and maintaining a broad range of highways products, presented to you by established and informed experts in the roads sector.

- ✓ Understand highway standards for the use of VRS and best value design.
- ✓ Learn about new solutions that provide increased efficiencies and support carbon reduction.
- ✓ A live presentation, allowing for Q&A throughout the presentation.

OUR TOPICS

Highway Requirements

Including CD377, VRS guidance, concrete barriers, temporary barriers and normal, high & very high containment barriers.

Passive Safe Terminals

Learn more about our crash friendly end terminals.

Carbon Footprint

Reducing carbon through fresh innovation.

Barrier Selection

Not all barriers are the same. Expand your knowledge to choose the best value VRS solution.
